SUMMARY

Business Analyst with hands-on experience in ERP implementation (BRAVO) across accounting, warehouse, HR, and production domains. Skilled in requirements elicitation, SRS/BRD documentation, BPMN/UML modeling, and end-user training. 1st Prize winner at LowCode Challenge 2025. Seeking a Junior BA role to deepen domain expertise and deliver measurable business value.

SKILLS

- **Business Analyst Core:** Elicitation, BPMN, UML (Use Case/Activity/Sequence), User Stories, UAT, MoSCoW Prioritization
- **Documentation & Design:** Confluence, Notion, MS Office, Draw.io, Figma
- **Data & Reporting:** SQL (Advanced), Power BI, MS Excel (Pivot, VLOOKUP, Dashboard)
- **Tools:** Diagram (Draw.io, Lucidchart, Visio), Wireframing (Balsamiq, Figma), Prototyping (Axure, Figma make, v0, Lovable), API (Postman), Document (MS Office, Confluence, Notion)
- **Project Management:** Jira, Agile/Scrum, Waterfall, SDLC
- **Soft skills:** Analytical Thinking, Problem Solving, Communication
- **Languages:** Vietnamese (Native), English (B1 – Intermediate, TOEIC 720/990)

PROFESSIONAL EXPERIENCE

BRAVO SOFTWARE JSC

Ha Noi, Viet Nam

Functional Consultant /BA Pre-Sales

Jan.2026 – May. 2026

- Elicited and documented detailed business requirements from 3+ enterprise clients across accounting, warehouse, purchasing, production, and HR-payroll modules, securing 100% timely sign-off on BRDs.
- Configured BRAVO ERP system components (catalogs, parameters, user authorization, and document circulation), optimizing core operational workflows by 20% to match each client's specific business model.
- Delivered tailored training sessions for 20+ end-users per project, accelerating system adoption and reducing post-go-live support tickets by 40%.
- Collaborated directly with B2B client departments (accounting, warehouse, HR) to troubleshoot system deployment issues, minimizing data processing errors by 35% during the UAT and operational phases.

VIET TRI DAO DIGITAL TECHNOLOGY CO., LTD.

SportHub Platform - Business Analyst

Oct.2025 – Jan. 2026

Domain: Booking, Sport Teamsize: 10

- Collected requirements to deliver BRD, SRS, and 80+ User Stories (Gherkin) for a cross-platform sports app, managing 4 system roles (Player, Partner, Staff, Admin).
- Designed UI wireframes via Figma and mapped system workflows using UML diagrams.
- Formulated business rules (OTP, Refund, Google Maps) and coordinated End-to-End UAT.

Freelance Web/App Builder

Freelance

Aug.2025 – Present

- Gathered and analyzed business needs for product validation, translating vague ideas into clear user stories and feature matrices for 3+ web/landing page projects.
- Designed interactive UI/UX wireframes and high-fidelity prototypes using Figma, cutting down client feedback iteration cycles by 20% prior to development.
- Engineered responsive interfaces and managed deployment pipelines on Vercel, ensuring 100% on-time project handovers with optimized domain configuration.
- Resolved post-launch frontend and functional bugs during the stabilization phase, maintaining a 95% customer

satisfaction rate for delivered platforms.

PROJECTS

Circle Bank Mobile App | Role: Business Analyst | [Link](#)

- Analyzed requirements for a mobile banking app focused on digital onboarding; modeled TO-BE workflows for eKYC, account creation, and debit card issuance.
- Documented comprehensive SRS with MoSCoW-prioritized requirements, NFRs, and Use Case specifications.
- Produced BA artifacts: Use Case catalog, State Diagrams, business rule matrix, and UI Specifications for 10+ screens.

Worklogs Management System | Role: Business Analyst

- Analyzed requirements for an internal system to track project progress, log working hours, and manage tasks for software development teams.
- Designed role-based access control and functional workflows for 4 user roles: Admin, Project Manager, Team Leader, and Member.
- Specified reporting dashboards (pie/line/bar charts) and documented SRS with UI conventions, validation rules, and error messages across all modules.
